What is thought to have been instantaneous combustion in the barn hay, caused a loss of around \$15,000 when the barn on the Fred Brown farm, burned to the ground last Saturday. The farm is located on Willow avenue in New Lenox township.

The Brown's son Stanley, was home alone at the time. He had been working in the barn most of the morning. He had just taken a load of manure from the barn and dumped it on the spreader and turned at once to re-enter the barn, when to his amazement he was greeted by a mass of flames. He ran to the other door to take out the bull, three heifers and two calves, but the smoke was so black and dense that he had to forego the attempt. There had not been a sound of warning of any kind and it is considered most fortunate that he had not been caught in the flames.

The New Lenox and Mokena fire departments were called and quickly responded and by the time they arrived the barn was a roaring furnace. The tractor was pulled from the barn, but not without having the two large back tires burned. The corn field adjoining was set fire from sparks and required quick work from the firemen to save the field.

In the barn were over a thousand bushels of oats, a thousand bales of alfalfa and bean hay, a large quantity of ground cow feed, three tons of coke, all farm tools, manure spreader, milking machine and many milk cans beside many other various equipment and supplies. The bull, heifers and calves were also burned to death. The loss is partly covered by insurance.

The concrete silo, which is filled with feed, and which was next to the barn, was scorched and the doors were burned off. The roof on the brick milk house was burned also, but as the wind was away from the house and other buildings, they were not damaged altho in the beginning when the fire was most severe, the windows in the house could not be touched for heat.

The Browns, who purchased this farm and moved there last March, had lived on a farm in Green Garden township for a few years.

Their plans are to rebuild the barn as soon as possible as their 15 milking cows are now being housed in a vacant barn on the nearby farm owned by Richard Been Jr.

Betty Brunner and J. Richard Landahl United in Marriage

A small but beautiful wedding took place at 5:30 o'clock Saturday evening, October 22nd in the First Lutheran church at Blue Island, when Miss Betty Brunner, daughter of Mr. and Mrs. Samuel William Brunner of Tinley Park, became the bride of Mr. J. Richard Landahl, son of Mr. and Mrs. Gustav Landahl of Mokena.

A program of organ music played by Mr. Vetter preceded the double ring ceremony, which was performed by Pastor Walter H. Ruth. Mr. James Ganzer sang "O Perfect Love" and "The Lord's Prayer."

Mr. Brunner gave his daughter in marriage, who looked lovely in her dusty pink slipper satin dress. She wore a matching hat and veil and carried a beautiful bouquet of tiny pink orchids surrounded by white flowers of love.

The matron of honor, Mrs. Lorraine Mullauer, cousin of the groom, wore a similar styled dress, silver blue gray in color, and carried a bouquet consisting of one large pink mum surrounded by smaller ones of the same color.

The bride's mother chose a gray dress with wine accessories for her daughter's wedding. Her corsage was white orchid colored mums.

The groom's mother wore a green dress with black accessories. Her corsage was yellow mums.

Samuel Brunner Jr., the bride's brother, served Mr. Landahl as best man. Edwin C. Suhs and John Mullauer served as ushers.

A reception for fifty close friends and relatives was held at Perry's, 147th street and Western avenue, where the bride's uncle, Mr. Edwin F. Suhs, served as toastmaster.

The newlyweds left immediately after the reception on their honeymoon trip to Cleveland, Ohio. They will make their home in Tinley Park.

"Andy" Bueschel Injured in Accident In Worth Township

Andrew Bueschel, 47, of Mokena figured in an automobile accident early last Sunday morning and received a compound fracture of his left arm as a result.

The accident happened at 95th street and Ridgeland avenue. He was a passenger in a car owned and being driven by Mrs. August Dunlap. They were on their way to Oak Lawn to take home, Mrs. Margaret Grant who is a cook in the Dunlap restaurant at 6600 west 123rd street.

At the intersection their car and a car driven by Loren D. Miller, 32, of Worth, collided. Mr. Miller, an operating engineer was killed.

The injured people were removed to the Little Company of Mary hospital. Mrs. Dunlap had minor cuts and bruises. Mrs. Grant, serious injuries to her body and head. In addition to the fractured arm, Mr. Bueschel also has minor bruises on his face and head. He will be a patient in the hospital for about six weeks.

\$100 REWARD FOR ARREST OF GUILTY PARTIES

Because of continued and destructive vandalism, farmers in Green Garden township had decided to take steps to overcome this condition.

They are offering an award of \$100, for information leading to the apprehension and arrest of the persons involved in the vandalism.

Using Halloween as an excuse, and apparently figuring it in the class of tricks, farmers in that section have been subjected to loss of property.

John Bauch reported to the sheriff that a wagon load of hay in his farm yard was overturned. The load was so heavy that the overturning caused the wheels to crack and broke the frame of the wagon. The same thing occurred on the Wayne Krapf farm, both in Green Garden.

Herman Siebert reported that a hay stack on his farm in Peotone township had been set afire with the complete loss of it. This all happened last Friday evening.

It has been learned that on Monday evening, Halloween, more vandalism was done, among which were broken windows in vacant school houses and other farm wagons overturned.

Mokena Boasts Only Male PTA President In Will County

President Paul Cowhig must have experienced a great pleasure when he called to order the October meeting of the Mokena PTA last Tuesday night.

Of course, all those many people didn't come just to see him—the only male president of a PTA in Will County—but they did come, and with the fine programs scheduled, the possibility, or even probability, is that the crowds will get larger as time goes on.

Where is there a better bargain? Good programs monthly, 25c due annually! Why, the coffee and after each meeting is worth more than that... and no tax, yet. Time was when only a certain few mothers took an active interest in the PTA, but now some of the fathers are beginning to realize they're parents, too, and maybe they could benefit by active participation. Anyway, it's worth a try! Oh, yes, the "A" of the P. T. A. means "and everybody else" interested in promotion of child welfare! So, come out to the next meeting just as a start.

Getting back to the October 25th meeting, Mrs. Allen W. Davies delighted the crowd with her interesting review of the book "Cheaper by the Dozen." Second grade room mothers were hostesses and served delicious refreshments.

Anyone interested in subscribing to the Parent Teacher magazine should get in touch with Mrs. Harold Cooper. It costs \$1.25 per year. —Lyman Teague, Pub. chair.

Legion Notes

Bobzin-Swinford Post 1098

The next regular meeting of the Ladies Auxiliary of the Bobzin-Swinford Post 1098 of the American Legion of Frankfort will be Thursday evening, November 10, starting at 8:00 pm. The meeting will be held in the Frankfort village hall.

The Auxiliary has sent a challenge to the Legion in the current membership campaign being held by each unit, that the first team that reaches one hundred percent of the 1949 membership will be given a Christmas party by the losing team. So come on you Legionnaires, let's get those dues in and start looking forward to that Christmas party the Auxiliary is giving us. The Post has 50 percent of it's membership of last year paid up to date but the women haven't let out what percent renewals they have in. Maybe they are keeping it a secret.

At present the groundwork is being laid for the coming campaign, "Gifts to the Yanks who Gave." This year the American Legion has set up in Illinois a goal of 14,000 gifts. Also, the Legion has set up the "Gifts to Yanks who Gave Club" with shares at only five dollars each. Each share will be the amount given to each of the Veterans in the various hospitals in the State of Illinois. Anyone giving five dollars to this program will receive recognition from the American Legion in the form of a membership card stating that the holder is a member of the "Christmas Gifts to Yanks who Gave \$5-14,000 Club."

Mokena Had "Safe And Sane" Halloween; Parties

Monday night found the streets of Mokena filled with goblins, witches, clowns and "awful things" as Halloween came and went.

Of course the kiddies had to get in practice so they started playing pranks as much as a week previous to Monday.

However, the Mokena kids behaved pretty well as at press time there hadn't been a report of any serious vandalism. Tuesday morning found the merchants of the village out in front of their places of business using elbow grease to remove the soap from their windows. (In case any housewives are afraid of a soap shortage in the community see the full page ad in this issue.)

Party activities around this area were many and varied, starting last week and continuing through Monday night. The following social events have been reported to us:

Miss Betty Edwards and Robert Homering entertained at a Halloween party in her home last Saturday evening. Games were played and refreshments were served.

Mrs. Harry Cooper entertained 15 school mates of her daughter Paulette, at a Halloween party in the basement of their home last Friday evening. All came dressed in costume. Games were played and treasure and scavenger hunts were enjoyed. Refreshments were served and all went home having had a good time.

For the young married folks and the older folks alike there were two parties scheduled for Sunday night in local taverns. Robinson's tavern held a masquerade party, giving prizes to the winning costumes, and such a great number attended the party masked that the judges spent about a half-hour before awarding the cash and consolation prizes.

Muehler's tavern in "downtown" Mokena listed three major prizes for best costumes, and reported a good attendance at their party. The village fathers were "on their toes" just in case any vandalism cropped up, but had little to do, and finally went to bed.

Even the News-Bulletin office was visited by an assortment of hideous looking characters.

Hay Rack Ride and Bon Fire Service For MYF Sunday

The choir and the Youth Fellowship group of the Mokena Methodist church enjoyed a hay rack ride Sunday.

Leaving the church at 4:30 with the Newton twins, Jackie and Ronald as hosts with the tractor pulling the hay rack, they drove about town and later gathered at the pond on the Manhart farm where Harold Cooper and Hugo Neithamer had a large bon fire burning. There they ate a supper that satisfied a hungry youth's appetite, furnished by Mr. and Mrs. Harold Cooper. After the "eats" the regular MYF devotional meeting was held, sitting around the fire near the pond of water. Another trip through the countryside and calling at the Newton home, brought the delightful evening to a close.

Arthur Shoop, committee chairman with members, Milton C. Geuther, and F. B. Needham and A. F. Steen as senior adviser.

This group of men met with Mr. Needham in his home last Saturday evening to plan the Post's activities.

Monday evening the 13 Explorers met with Senior Adviser Steen in the school and talked over plans for their work, registering and crew organizing. They will attend an Explorer's conference Sunday afternoon and evening, November 6 in the Scout cabin in Highland Park, Joliet.

Demonstrated New Welding Process

Wallace Weichbrodt of Frankfort and Angelo DePra of Lockport who are the instructors of welding at the night school in the Joliet Township high school, gave a demonstration to their classes last Friday night of a new method.

The new type of welding with its new equipment showed how welding can be done without any colored glasses. It has many advantages and is stronger than the former methods.

There were many visitors from Joliet and surrounding territory present at the demonstration.

Since last week's paper, this reporter has been determined to give more definite information about the Sugar Foot minstrel which the Mokena PTA will give this Friday and Saturday evening in the school gym.

First thing, in gathering my information I peeked in at all the school windows where practicing was going on, and found I wasn't. So I walked and walked until I located the home where the practicing really was in full swing. I just opened the door and walked in and sat down and no one saw me until the practice was nearly over. Boy oh boy, did I see and hear something good. So now what will I do. Keep faith with my paper to give the news, or keep faith with those who were ready to put me in jail, if I gave the news out. Now I wished I hadn't walked in that house.

Well anyway, there I found out that Mr. Africa has a restaurant and the way he washes dishes is—maybe a new idea, that the housewives will like to know. And then he makes a new soup, he called it 14 carrot soup and says it just makes your mouth water, and as I like carrots, I sure did want to sample that soup. But I didn't—know why?—they didn't offer me any, and I didn't think that was nice, but maybe they intend to pass it around the nights of the minstrel.

O, yes, pretty soon I really did wish I wasn't there, for, out of a clear blue sky they began questioning several jail birds, and then I knew what I was in for if they kept their word and put me in jail if I gave out the names of—well Mr. Africa for instance. So you will excuse me this time for I want to live a little while until a job I got to do is done.

But I did find out that after the minstrel there will be a nice social hour with refreshments and dancing.

I'll see you at the minstrel. Remember it is two nights, Friday and Saturday, November 4 and 5 in the school gym at Mokena given by the PTA.

Charity Housing

By GEORGE PECK

Accompanied by pictures, a peck from a disgruntled Detroit taxpayer has just reached me. Sorry I can't pass the pictures along to my readers, but I can quote parts of the letter, which read, as follows:

Dear Friend Peck: Will you please take a look at the enclosed pictures and bear with me through this long letter? The big picture is Parkside, Detroit—Public Housing Project. There a small portion of Detroit's half million families enjoy the security of comfortable, modern, subsidized housing. It was built in 1938 and 1941 by the taxpayers at a cost of six million dollars. It nestles within the shadows of beautiful Chandler Park and these fortunate families enjoy the use of an eighteen hole golf course, tennis courts, wading pools and acres of picnic grounds. Truly this is gracious living at its best.

Each of the families living there has been carefully selected by the Detroit Housing Commission from thousands of applicants. Each is provided with space to fit his needs and some have as many as six rooms. Each family has a private bath, electric refrigerator, and range, and steam heat is supplied from a central heating plant, thus eliminating the drudgery of handling coal and ashes. Lawn mowers, garden tools, grass seed and fertilizer are furnished free to those families who care to improve their yards.

Without the generous subsidies and tax exemptions made possible by me and my fellow citizens of Detroit these homes would be beyond the reach of most Detroit families. But there, at least in Parkside, a FEW families may enjoy fine subsidized living. Eligible families contribute as little as \$17.00 per month toward the cost of this housing regardless of the number of rooms occupied. However, nearly half of the families living in these ivy-covered walls are over-income families and thus ineligible for subsidized housing. Just think of it, some of them must pay as high as \$57.50 per month, which also includes all utilities.

Parkside families are indeed happy families—particularly the over-income families. During their ten year residence at Parkside some of them have seen their income soar as high as \$8,000 or \$9,000, but few deserted Parkside. Instead, they have preferred to stay on, to enjoy subsidized housing and to use their rent savings to buy the better things in life.

Unfortunately, only a few select families can enjoy subsidized housing, because subsidies by their very nature must be paid for by MANY but enjoyed by FEW. But Parkside stands as a monument to the generosity and unselfishness of the half million Detroit families—rich and poor—who are shouldering the burden of increased taxes so that a FEW may enjoy a better life. Of this my city may well be proud because rare indeed is the citizen who is willing to contribute his efforts so that others may live better than he.

Now please take a look at the other picture. In the Quonset Huts across the way from Parkside is where Veterans of World War II are living. Many of these Vets are looking forward to the day when they can afford a home of their own. Perhaps not as desirable as Parkside but at least a home of their own where one-third of their payments will go for real estate taxes. In the meantime they are content to pay \$25.00 a month for the privilege of living in these steel-lined foxholes while their more fortunate neighbors across the street enjoy the luxury of tax-free subsidized homes.

Undoubtedly in your city you have counterparts of Parkside and many more under construction, and you, too, can point with pride to the fine home your taxes are providing for some happy couple or family. Homes perhaps much better than you can afford.

For this you may thank your Congressmen because they have unselfishly pledged a large portion of your income so that a FEW may enjoy these high quality homes at your expense.

Never before, perhaps, has a Government taken so MUCH from so MANY to give to so FEW.

Faithfully yours,

MOKENA

November's Weather Record for Illinois

Forecasting by averaging the weather of the past is the aim of this Weather Record Map. Based on records of the U. S. Weather Bureau, some of which cover periods of 50 years and more, this Weather Record for November shows the average minimum temperatures and average snowfall for a number of states.

November, as a study of the map shows, brings the sharp bite of freezing weather in many areas. It is the time to look to the furnace, to refurbish winter wardrobes and to put your car in shape for winter months. When temperatures average as low as shown, you can bet your boots that there will be many days below freezing. So November is the time to be super-safe by loading up with antifreeze.

LETTERS TO THE EDITOR

Oct. 2, 1949

Buenos Aires, Argentina S. A.
Mokena News-Bulletin:
Dear Editor:

I received many letters and cards from readers of your News-Bulletin saying they were much interested in my letters, and as I now have a little time, I will now write a few more lines, hoping this letter is as interesting as the others were. I can not tell you much about Argentina just yet, as my time has been well taken up since arriving here Sept. 7th. My trip from Italy was most interesting to me, so I will tell you about that, hoping it will be as interesting to your readers. I left Turin, Italy at 20.20 on what was called the Rome express, Sept. 5, but much different from our U. S. express trains. To me, it was more like the Chicago Joliet Rock Island, except that this train had a dining car and sleeping cars. Soon after boarding the train I went to the dining car for dinner, and here too, I saw quite a difference to our U. S. dining cars. However it was not bad, and I enjoyed a nice Italian dinner, consisting of a bottle of Italian wine, soup, spaghetti, roast veal, vegetables and desert. There is no choice on an Italian dinner, if you don't like what they serve, you can take it or leave it,

and you will still have to pay 1,000 Lira plus 15 percent for the waiter, which amounts to about \$2.35 U. S. money. After I had finished dinner, I sat there enjoying my last Good old U. S. cigar. While the others were smoking Italian cigars and cigarettes. After all had finished dinner, the dining car conductor came along with a good size wooden box to collect for the diners. The reason for the large wooden box was that an Italian 1,000 Lira is about eleven inches long and about six inches wide, so you can imagine what a bunch of Italian money I had, when I cashed a U. S. \$20. bill. After dinner I went to a sleeping car where I had a large bedroom, which also was much different from a bedroom on a U. S. train.

This bedroom was about twice as large as a bedroom on an American train, and half as modern. There was a very large window in my bedroom, which I left open all night, as the night was very warm, and there is no air conditioning on these trains. These large windows are also used to pass baggage in and out of the bedrooms, as the passage way in the sleeping cars is very small. I did not get much sleep, as the jerking and bumping of this small light car over the uneven road bed kept me bouncing on a bed that was none too soft. Also the continuous whistling of the shrill whistle of the small but noisy engine did not help. Arriving in Rome the next morning at 7:30, I had my usual

trouble with a taxi driver who took me from one air plane booking office to another, after I showed him a card with the address of the KLM where I wanted to go. After an hour of taxi riding from one office to another, I finally got the correct place and was booked for passage on a four motor Constellation bound for Buenos Aires.

I had a little time to spend in Rome but not enough to do much sightseeing, however I did see the famous Cathedral, and had enough time to get a few souvenirs. Arriving at the airport at 14.30 I went through the usual inspections, and boarded the plane at 15.40. Taking off at 16.00. This was a four motor Constellation, with a crew of ten. A Captain, Pilot, and co-pilot, Radio technician, instrument technician, an expert mechanical technician, three stewards and a hostess. Taking off at 16.00, we flew over the Mediterranean sea, making our first stop in Tunis, Tunisia, North Africa, where we stopped to refuel, and have refreshments while the technicians were checking over motors and other equipment. Leaving at 18.50 and just about dark, we made our next stop at Casablanca, Morocco, North Africa. This was an unscheduled stop, because of a little motor trouble with one of the motors. We had plenty of time to spend here, but as it was past midnight there was not much to see, except a few natives at the airport. Most of the people in North Africa are French, except for a few English and Spanish. Most of the negroes talk nothing but French, and as I can speak a little French and Spanish, I spent a little time with a vendor who sold me some post card pictures of the Morocco negroes.

Although I could understand him very clearly, and I am sure he understood me as well, I could not get much information out of him. There were a few other negroes at the airport dressed in their native garb, which consisted of strings of beads, highly polished shells and pieces of metal, glass and other things which looked like large teeth and bones of animals, belts of beads and very little clothes.

Arriving in Dakar, French West Africa at 02.20, we had a long stop here, this being our last stop in Africa, and a long flight ahead of us to So. America. Here all the equipment was again checked thoroughly while we had our usual refreshments, which were included in our passage. We left Dakar at 04.35 and out over to Atlantic Ocean arriving at Recife at 09.05. We were gaining time since we left Rome, the time in Recife, Brazil, So. America being about seven hours ahead of Rome time. We arrived in Recife in the morning and it was very nice and pleasant there. Recife is a beautiful city on the hilly coast of North Brazil. Most of the people in Brazil are Portuguese. We had much time to spend here as all the equipment was being thoroughly checked. Some of us enjoyed a walk along the hilly coast enjoying the warm sea breezes, as we walked in the shade of tall palm trees, coconut trees, banana trees, or plants, and many other tropical fruit trees not trees and large trees bearing beautiful flowers of various colors. Occasionally we would see small monkeys, a parrot or two and birds of many colors, both large and small, who seemed to be enjoying this more than we did. Leaving Recife at 10:35 we flew along the coast, making our next stop at Rio De Janeiro at 15.15. It being dark when we arrived in Rio, we did not have a chance to enjoy much of its beauty except as we saw the city from the air, all lit up, which was very beautiful and looked like a large blanket of colored patches of various shapes. Here we had our usual rest stop and refreshments, while the crew took care of their usual duties about the plane. Our next stop was Montevideo, Uruguay at 21.45. Here the flight mechanic discovered more trouble in another motor, so we were all taken to good hotels and given nice rooms with

a bed that was most appreciated by all, as we had really been on our way over thirty hours without sleep. We were called at 09.00 and served a nice breakfast of ham and eggs which made me think of home, as this was the first ham and eggs I had since I left home.

Our plane did not leave until about noon, so I had a little time to walk along the beach of the Rio Plata, Silver River which runs in to the ocean here and as the tide was going out I did a little beach combing on the fine soft sand, but found nothing but a few sea shells.

Leaving Montevideo at about noon we arrived in Buenos Aires about two hours later, the end of a thirty five hour flight from Rome, Italy, which I enjoyed very much.

I expect to go to Montevideo about Oct. 18th and will be there about thirty days, then to Santiago, Chile, which so far as I know now will be my last stop. I hope to have some things of interest to write about Buenos Aires very soon, I should also find it very interesting in Chile.

Farm Products Play Large Part in Auto Mfg. Industry

The interdependence of agriculture and industry was brought into sharp focus in a recent statement by Clay Bedford, executive vice-president in charge of manufacturing for the Kaiser-Frazer Corporation during a farm radio interview with Med Maxwell at the sprawling Willow Run, Michigan plant.

Maxwell, a widely-traveled farm commentator, made the interview for the Wayne Feeds "Let's Go Visiting" program, broadcast regularly over leading farm radio stations throughout 32 states.

Willow Run, second largest building of its type in the world, covers 88 acres under one roof, and in Bedford's words "to put it in farm terms, we produce better than 240 completed autos per acre!"

In producing these cars, enough cotton is used to take the total production of more than 10,000 acres. Thousands of bushels of soybeans are also required for the manufacture of auto paint and various plastic parts.

Each auto coming off the Willow Run assembly line utilizes about 10 yards of cloth, mostly wool, which

means a substantial market for the wool crop sheared from thousands of sheep.

About 30,000 persons are connected with the manufacture, servicing and distribution of Kaiser-Frazer cars, Bedford pointed out that this requires an annual payroll of nearly 90 million dollars, most of which must be spent for food, clothing and shelter, providing a huge additional market for farm products.

"Using the average figure of 3 1/2 acres per person, it takes the output of 105,000 acres just to keep our employees fed and clothed," Bedford said.

The auto man explained that while the farmer is dependent on industries like that at Willow Run for a steady market for his products, industry is likewise dependent upon the farmer for a market.

"About 50 percent of our sales are to farmers, and people from farms and rural districts make up about 92 percent of our employees. We are very conscious of the common destiny of farmers and industry," Bedford concluded, "the better we understand each other's needs and operations, the better we contribute to a happy, prosperous nation."

Great interest is being manifested in "Table Trends at Peacock's," the latest venture of The Garden Club of Illinois, which will take place on Wednesday, November 9, in the second floor gift shop of C. D. Peacock's loop store, Chicago.

Cunliff, Glenview Garden club; Mrs. Paul Walker, Wheaton Garden Club; Mrs. Marshall Lee, Garden club of Hinsdale; and Mrs. A. W. Landers, Tuesday Garden Club of Aurora.

On Monday, November 7th, at 8 pm., Mrs. J. Wilson Madlister of Barrington, will appear on television, station WGN, by the "Woman's Magazine of the Air," and will talk about this event. She will illustrate her talk with a table setting and flower arrangement.

TIME CONQUERS—Only a miracle can save the oldest British warship afloat from destruction. HMS Implacable, only surviving ship of the Battle of Trafalgar except Nelson's flagship Victory, is scheduled to be stripped and sunk in the 90-fathom Hurd Deep, off Alderney in the Channel Islands. There are no funds to preserve the historic vessel. Above, workmen remove the bowsprit in preparation for Implacable's last voyage.

PREPARING FOR THE WORST—Wearing anti-radioactive suits, these civil defense trainees at Easingwold, England, test an artificially created "area of atomic devastation." Instructors are being readied for the expansion of the civil defense program in November. England wants to be prepared.

UNDER THE CROSS OF MALTA
(Continued from Page 1)
there remains plenty of interior
work yet to be done. This week a
part of the plumbing will be install-
ed. The heating plant has been de-
livered and work installing it will
commence soon. The electric wir-
ing is well under way. Contractor
"Phil" Hacker has said he will
soon be on the job with his crew
to build a stairway and other car-
penter work.
Another crew is hired to erect
eavestroughs, down spouts etc. One
of the big jobs—putting that ceil-
ing up. The building committee still
has some slight hopes of recruiting
volunteer help to aid in the job.
Comrades of the Post and citizens
you can surprise the building com-
mittee by volunteering your help.
If anyone cares to invest a little
money in the building contact the
finance committee or any member
thereof.
All members of the Post are in-
vited to attend a wedding dance
given by Comrade and Mrs. Russell
Stankus in honor of the recent
marriage of their daughter Clara
to Mr. John Marquardt, next Sat-
urday evening, Nov. 5, 8 p.m. in
Hatch hall. Mr. Marquardt is a re-
sident of Joliet and a member of

Fewer Cattle in
Illinois This Year
Cattle on grain feed in Illinois as
of October 1 totaled 201,000 head,
or about nine per cent fewer than a
year ago, and seven per cent less
than on July 1 this year, accord-
ing to state and federal depart-
ments of agriculture.
About 272,000 head of stocker and
feeder cattle were shipped from
western ranges into Illinois during
July, August, and September.
Many of these had not been placed
on grain feed by October 1, but
were being held on pasture, and will
be turned into corn fields as soon as
husking is done to help use the
heavy amount of down corn that is
to be found this season.
Unusually large farm stocks of
corn, a rather strong consumer de-
mand for beef, and a trend toward
lighter weight cattle are listed as
features of the Illinois cattle-feed-
ing situation this fall.

Trains
It's fun to live by the railroad
tracks
With the trains going by.
They shake your bed and rattle the
cups
And make the children fly.
I couldn't sleep without them
They mean so much to me
But why, oh why, do they go so fast
When they have so much to see?
There's the long rumbling freight
train
The stream liner from coast to coast
The local to Mokena
That's the one I like the most.
So if you want excitement
Just come to visit me
And we shall watch the trains go by
And see what we can see.
